

# VERIFIED SYSTEMS TECHNOLOGY

## SYSTEMS TECHNOLOGY OVERVIEW

LIVE VIDEO MONITORING • IP CAMERAS • ALARM SYSTEMS • MOBILE SURVEILLANCE BOOTHS • PORTABLE SURVEILLANCE UNITS

Initial Security is an Integrated Security Solutions Company. We continuously upgrade our performance to meet the highest standards of quality and exceed our customers' expectations. We offer a complete range of Security Services and Systems. We represent a wide variety of clients, in many industry and business sectors, approaching each case with our full attention and dedication, we aim to protect your interests.

### Range of Physical Systems Technology

- Eyewitness C3 Guarding
- IP Camera Systems
- Alarm Systems
- Mobile Surveillance Booth Units
- Remote Monitoring Portable Surveillance Units
- IOT Technology (Drone Monitoring) **NEW**

## EYEWITNESS C3 GUARDING - COMMAND | CONTROL | COMMUNICATION

INTEGRATED DESIGN • WIRELESS SURVEILLANCE • REMOTE SENSING • AXIOM™ • UNIVERSAL COMMUNICATION SUPPORT

Developed as a dedicated COMMAND, CONTROL and COMMUNICATIONS (C3) platform, the EyeWitness C3 is designed to provide powerful sensor monitoring, remote device management and network connectivity. The EyeWitness C3 is a unique monitoring solution, harnessing AXIOM™, an embedded intelligence technology built into the core of the system. More information about EYEWITNESS C3 is contained in a separate info sheet.

### Eyewitness C3 Guarding Services Capabilities & Features

- Motion Sensing
- Better than 20/20 Vision
- Real Time, Live Operator Monitoring
- Up to 60 feet Face & Licence Plate Recognition
- Voice Command Alert

## IP CAMERA SYSTEMS

COMMERCIAL GRADE • PTZ • TRUE WIDE DYNAMIC RANGE • NVR • AI TECH

At Initial Security we sell and install Commercial Grade High resolution IP Cameras and Recorders. See section on Features and Options below. These can be installed anywhere, either wired or wireless. These cameras are easily NVR enabled for connectivity to any mobile or desktop device.

### IP Camera Features / Options

- High Resolution 2 MP to 4K and up!
- True WDR (Wide Dynamic Range) ensures Proper Image Quality at any Light Level
- VA (Video Analytics) enable Motion Detection & Motion Auto Tracking
- NVR (Network Video Recorder) Remote Access
- PTZ (Pan Tilt Zoom) allows Auto Tracking

## ALARM SYSTEMS

INTRUSION • BURGLARY • TEMP SENSORS • EMERGENCY PENDANT • REMOTE ARM & DISARM

Our goal here at Initial Security is to match the right alarm system to your security needs. The state-of-the-art commercial quality equipment we install is guaranteed to detect security breaches or treats and to deter intruders and ensure rapid response during an emergency situation.

### Alarm Monitoring & Alarm Response

- 24/7 Expert Remote Monitoring
- Two-Way Voice Monitoring
- Temperature Sensors (Flood/Fire)
- Connectivity: IP, Cellular, WiFi
- Immediate Response
- Security/ Threat Alerts
- Initial Security is the First Point of Contact
- Emergency Response Dispatch

## MOBILE SURVEILLANCE BOOTH UNIT

SECURITY GUARD • LIVE PATROL • LIVE MONITORING • POWERING OPTIONS • HD IP CAMERAS

The mobile surveillance trailer can be placed anywhere and is designed to provide a single solution for the deployment of surveillance and video storage in locations where either power or Internet capabilities are inadequate. Having a visible booth staffed by security guards can help prevent crime, maintain security, and assist customers. Portable guard booths make a great addition to your security team for your short-term, long-term, or permanent needs.

### Security Booth Benefits

- Portable - Can Be Placed Anywhere
- Short Term, Long Term, Permanent
- 5' x 8' Visible Clearly Marked Security Unit
- Security Personnel Staffed
- Presence - Visible Security Deters Crime
- Surveillance Control Center in Booth
- Booth Equipped with Comfort Features
- Professional Grounds Monitoring
- Rapid Response to Crime and Threats
- Professional Crime Reporting
- Maintains Security at Site for Employees and/or Customers

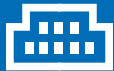

### Camera Features & Options

- **4 x HD IP Cameras:**
  - 93 Degree Vari-Focal Angle
  - 33 m Range IR LED Illuminators
  - IP66 Dust & Moisture Resistance
- **1 x HD IP PTZ Camera:**
  - 20X Optical Zoom
  - Long Range 495' IR LED Illuminators
  - IP66 Dust & Moisture Resistance
  - Multiple Configuration Possibilities, ie: Auto Patrol Multiple Specific Areas of Concern, Manually Controlled or Static Location Monitoring.

## REMOTE MONITORING PORTABLE SURVEILLANCE UNIT

FULLY INTEGRATED • CAMERAS, SIRENS, PA SPEAKERS & STROBES • WIRELESS CONNECTION • 110 VAC

The PORTABLE SURVEILLANCE UNIT is designed for the temporary deployment of surveillance and video storage in locations without the need for permanent wiring or infrastructure. The client only needs to provide an elevated point on which to place or suspend the Unit with proximity to a constant 110VAC power source. This can be in the form of a pole, tower, rooftop, or similarly elevated location. For a more temporary solution – such as a natural or environmental disaster, the unit can be placed atop of a stationary pickup or SUV or attached to an optional tow-receiver vertical pole. Applications for this unit range from emergency response/critical incidents, to site construction or fleet and equipment yards.

### Power & Mounting

- Constant 110 VAC Required:

This can be as simple as placing the unit on the roof of a mobile construction office and powering from within, or the unit can be attached to the mast of a portable lighting system and generator.

### Lighting

- Supplemental lighting Included:

Can be configured in the form of visible illumination (detectable by the human eye) to actually light the protected area or infrared (IR) for more covert monitor/recording, if visible illumination of the area is not desired. Visible illumination can be configured to automatically come on at night, and then turn off during the day.

### Camera Features & Options

- HD IP True WDR Cameras:
  - 93 Degree Vari-Focal Angle
  - 33 m Range IR LED Illuminators
  - IP66 Dust & Moisture Resistance
- HD IP PTZ Camera:
  - 20X Optical Zoom
  - Long Range 495 ' IR LED Illuminators
  - IP66 Dust & Moisture Resistance
  - Multiple Configuration Possibilities, IE: Auto Patrol Multiple Specific Areas of Concern, Manually Controlled or Static Location Monitoring.
